

The Online Scientific Journal

'Noise Theory and Practice'

has been published since 2015. The founder of the journal is Nikolay Igorevich Ivanov, Doctor of Engineering Sciences, Professor of the department of Ecology and Industrial Safety of the Baltic State Technical University 'VOENMEH' named after D. F. Ustinov, the founder of the transport acoustics in Russia.

'Noise Theory and Practice' is devoted to the fundamental problems in the field of vibroacoustics and accepts papers in the following areas:
- 29.00.00 Physics
- 29.37.00 Acoustics
- 43.00.00 General and complex issues of natural and exact sciences
- 87.00.00 Environmental protection. Human ecology.

All articles submitted to the editorial office are subject to mandatory review. The journal is an open network resource and published four times a year.

Location address of the Editorial office

Bldg. 7'A', 138 Obvodny Canal emb., office 11-N, room 2-2

+7 (812) 495-77-97

e-mail: secretary@noisetp.com

Executive Secretary

Khrapko Natalya

Journal is registered in Federal service for supervision of communications, information technology, and mass media

The certificate of registration

ЭЛ № ФС 77-74057

Contents

Kolykhalin V.M.	RUS
Modeling of distant monitoring of solid residual oil products in tanks pp. 7-24	
Zhilina T.S., Plotnikov A.S., Oshchenko D.Yu.	RUS
Calculation of soundproofing floors in the roof boiler room of a residential building in the city of Salekhard pp. 25-38	
Shabarova A.V., Bortsova S.S., Butorina M.V., Kondratev S.A.	RUS
Recommendations for selection of sound protection measures to protect against railway noise pp. 39-50	
Bortsova S.S., Butorina M.V., Ivanov N.I.	RUS
Calculation of acoustic efficiency of embankment pp. 51-58	
Bortsova S.S., Butorina M.V., Ivanov N.I.	RUS
Calculation of acoustic efficiency of excavations pp. 59-66	
Pisarev P.V., Akhunzianova K.A.	RUS
Numerical study of acoustic processes in model channels for the development of wideband aviation sound-absorbing structures based on conical filler pp. 67-78	
Yugay L.A.	RUS
The possibility of using the measurement method of industrial enterprises with multiple noise sources in conditions of dense construction by industrial enterprises pp. 79-91	
Tyurina N.V., Voronova A.A., Fiev K.P.	RUS
Evaluation of cabin insertion loss for noise reduction in workplaces pp. 92-101	
Voronova A.A., Ivanov N.I., Tyurina N.V.	RUS
Calculation of the acoustic efficiency of cabins installed indoors pp. 102-107
